PSB #2021-12

TO: Goodyear Company Owned Stores, Independent Goodyear Dealers, G3X Dealers, Wholesale Distributors & Goodyear Canada Inc. Independent Dealers

SUBJECT: Dedicated Winter & All-Weather Tire Applications for Law Enforcement and Police Pursuit Vehicles (replaces PSB 2019-14)

The purpose of installing winter tires on a vehicle is to help gain optimum traction and handling when driving in winter conditions.

Due to the unique nature and operation of Law Enforcement and Police Pursuit vehicles, **when replacing these dedicated Winter and All-Weather tires, including studded winter tires, it is essential that they be applied to all four wheel positions.** Additionally, all four tires must be of the same tire line, size, load index, speed rating, and construction (radial or bias). Do not mix tire lines or different tire manufacturers and use only tires listed for Law Enforcement and Police Pursuit vehicle applications.

Make certain that only tires with the correct speed rating and load carrying capacity be chosen for each individual vehicle application.

Listed in the table below are the dedicated Winter and All-Weather tires that have the 3-Peak Mountain Snowflake designation for enhanced cold weather performance for Law Enforcement and Police Pursuit applications.

All-Weather Tires:

Size	Description	Product Code	Applications
265/60R17 108V	Eagle Enforcer All Weather	732-001-558	Chevrolet Tahoe 2010-2020
